

Table of contents

1. Introduction	1
1.1. <i>Mutual intelligibility of Danish and Swedish</i>	2
1.2. <i>Overview of the thesis</i>	13
References	16
2. The role of extra-linguistic factors for mutual intelligibility of spoken Danish and Swedish	21
Abstract	21
2.1. <i>Introduction</i>	21
2.2. <i>Research question</i>	23
2.3. <i>Linguistic and extra-linguistic factors</i>	24
2.3.1. Linguistic factors	24
2.3.1.1. Tonemes	24
2.3.1.2. Stød	26
2.3.1.3. Number of phonetic neighbours	26
2.3.1.4. Word length	27
2.3.1.5. Speaking rate	27
2.3.2.1. Attitude	28
2.3.2.2. Contact	29
2.3.2.3. Literacy	30
2.4. <i>Method</i>	31
2.4.1. Participants	31
2.4.2. Stimulus material	32
2.4.3. Procedure	34
2.5. <i>Results</i>	35
2.6. <i>Discussion and conclusion</i>	36
Acknowledgements	37
References	37
3. Investigating the link between language attitudes and intelligibility using reaction time	43
Abstract	43
3.1. <i>Introduction</i>	43
3.2. <i>Method</i>	45
3.2.1. Participants	45
3.2.2. Stimulus material	46
3.2.3. Procedure	48
3.3. <i>Results and discussion</i>	49
3.3.1. Word recognition experiment	49
3.3.2. Attitudes	52

3.3.3. Correlation between attitude and word recognition	54
3.4. Conclusion	56
Acknowledgements	57
References	57
4. Investigating the link between intelligibility and language attitudes using the matched-guise technique	61
Abstract	61
4.1. Introduction	61
4.2. Inter-Nordic communication	64
4.3. Method	67
4.3.1. Matched-guise experiment	67
4.3.1.1. Stimulus material	68
4.3.1.2. Bilingual speaker	68
4.3.1.3. Procedure	69
4.3.1.4. Participants	70
4.3.2. Word recognition experiment	71
4.3.2.1. Stimulus material	71
4.3.2.2. Participants	72
4.3.2.3. Procedure	72
4.4. Results	73
4.4.1. Matched-guise experiment	73
4.4.2. Word recognition experiment	79
4.4.3. Correlation between language attitudes and word recognition	80
4.5. Discussion and conclusion	80
4.5.1. The Development of Language Attitudes	80
4.5.2. The relationship between language attitudes and intelligibility of a closely related language	81
Acknowledgements	83
References	83
5. Syllable Reduction and Articulation Rates in Danish, Norwegian and Swedish	87
Abstract	87
5.1. Introduction	87
5.1.1. Linguistic Similarities between Danish, Norwegian and Swedish	88
5.1.2. Previous Research of Tempo and Reduction in Speech	90
5.2. Method	92
5.2.1. Material and speakers	92
5.2.2. Measurements	94
5.3. Results	96
5.3.1. Phonological Syllables	96
5.3.2. Phonetic Syllables	98
5.3.3. Reduction	98
5.4. Discussion	99
5.4.1. Reduction in Danish, Norwegian and Swedish	99

5.4.2. Articulation Speed in Danish, Norwegian and Swedish	100
5.4.3. Comparison of our findings with previous studies	101
5.4.4. Implications of this research	101
5.5. Conclusion	102
Acknowledgements	103
References	103
Appendix	107
 6. The role of L1 orthographic knowledge for spoken word recognition of a closely related L2	 111
Abstract	111
6.1. Introduction	112
6.1.1. Mutual intelligibility between Danish and Swedish	112
6.1.2. On-line activation of orthography during spoken word recognition	114
6.2. Experimental Procedure	115
6.2.1. Participants	115
6.2.2. Material	116
6.2.2.1. Speaker	116
6.2.2.2. Stimuli	116
6.2.3. Procedure	117
6.2.4. EEG Recordings	118
6.2.5. EEG data reduction and analyses	118
6.3. Results	119
6.3.1. Behavioural data	119
6.3.2. EEG data	119
6.4. Discussion	123
Acknowledgements	124
References	125
Appendix	128
 7. Summary, synthesis and prospect	 131
7.1. Summary	131
7.2. Synthesis and conclusion	136
7.3. Future research	138
References	139
