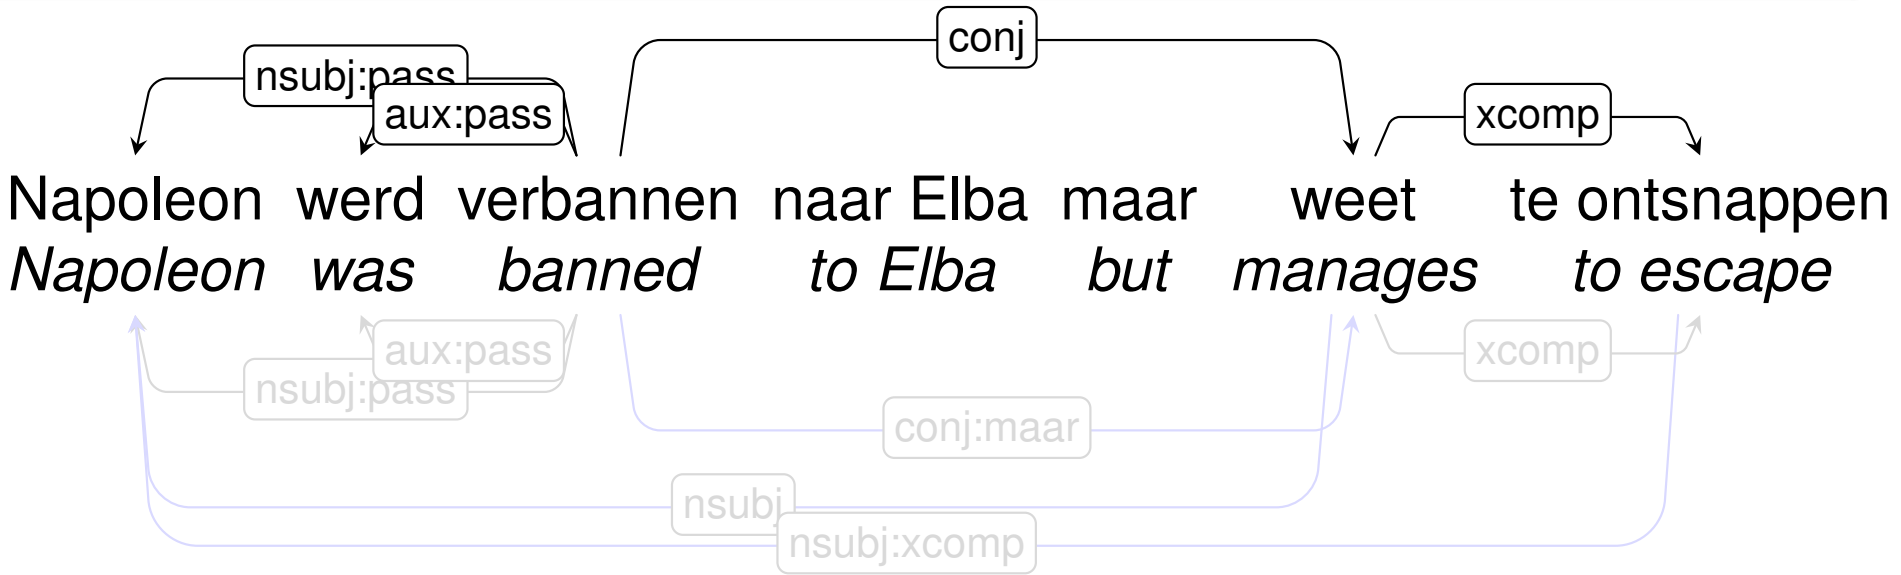
From Basic to Enhanced Universal Dependencies

Release 2.5

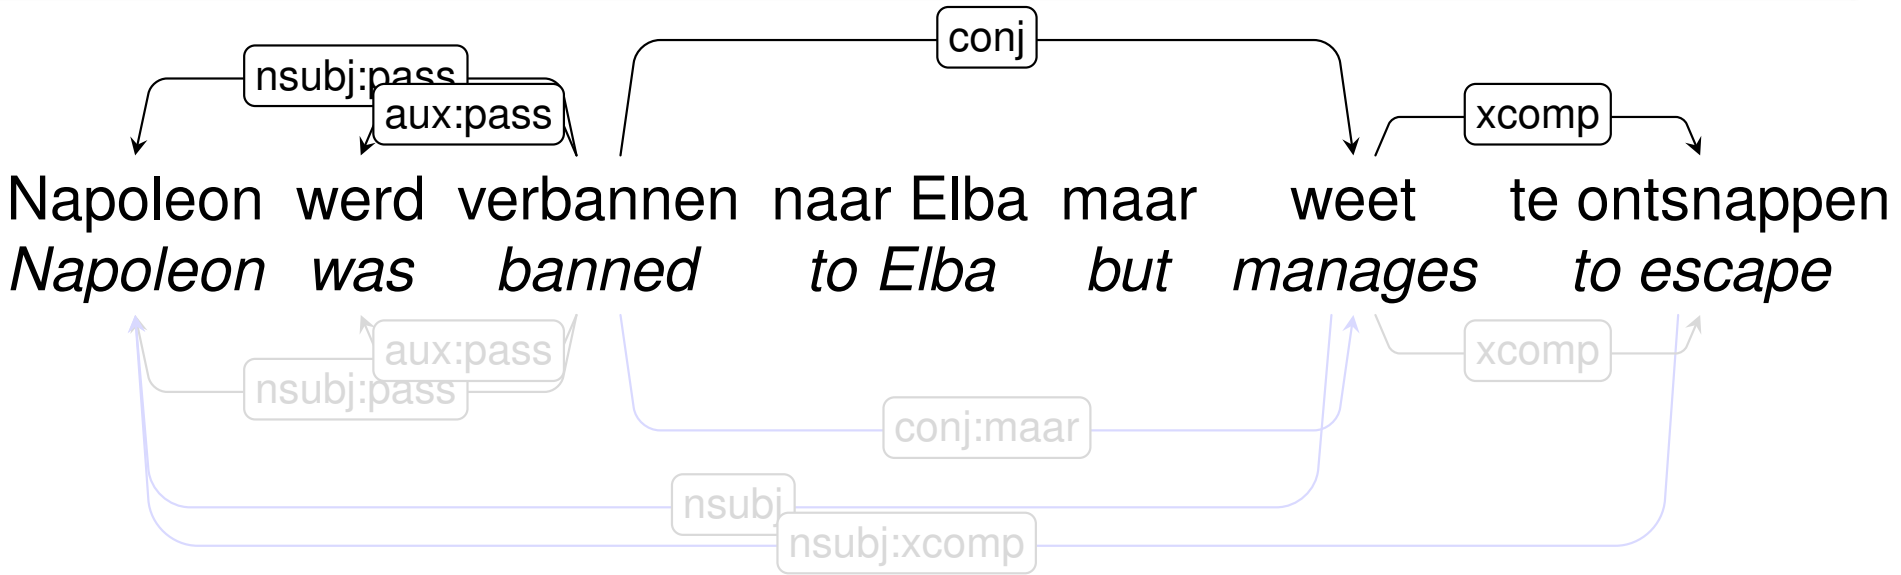
- Basic dependency relations (100+ treebanks)
- Enhanced dependency relations (10 treebanks)



From Basic to Enhanced Universal Dependencies

Release 2.5

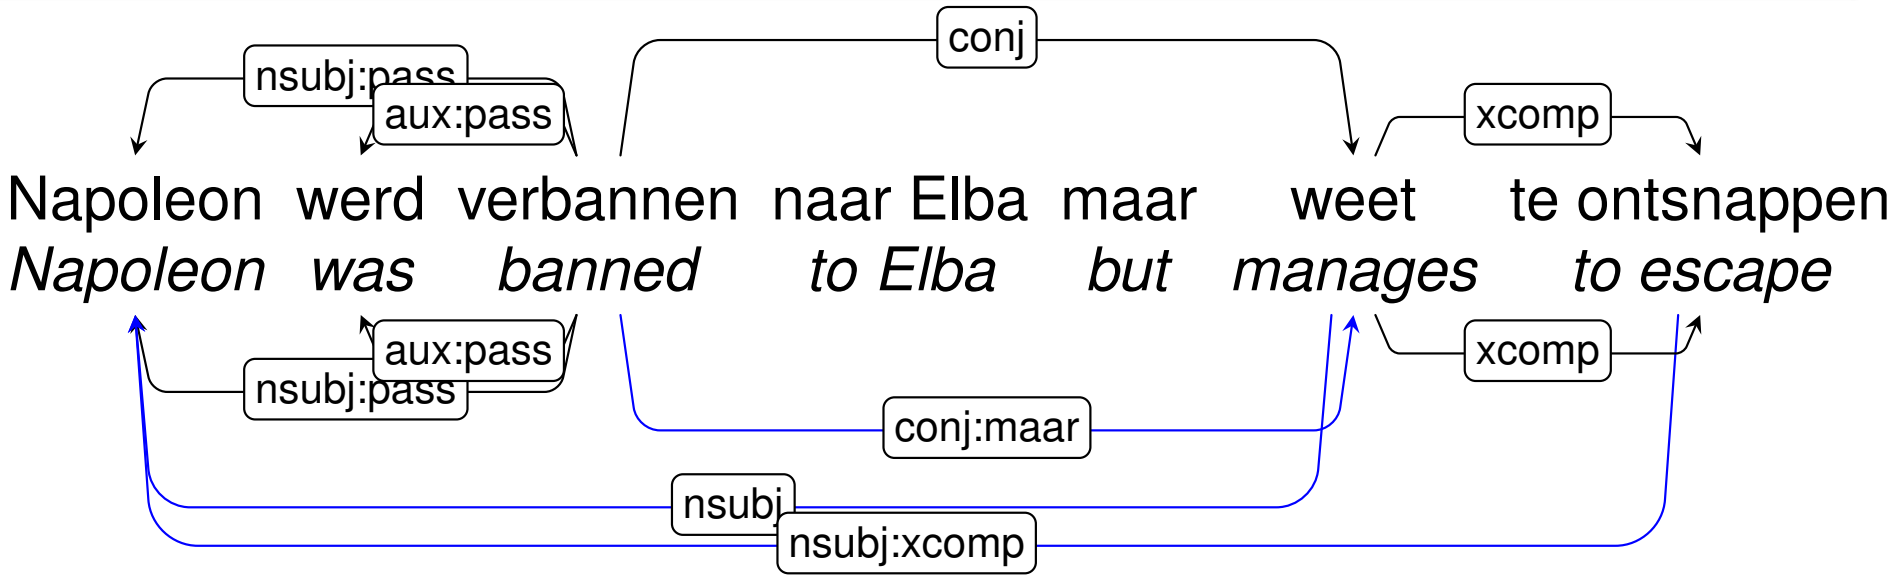
- Basic dependency relations (100+ treebanks)
- Enhanced dependency relations (10 treebanks)



From Basic to Enhanced Universal Dependencies

Release 2.5

- Basic dependency relations (100+ treebanks)
- Enhanced dependency relations (10 treebanks)



Enhanced Universal Dependencies

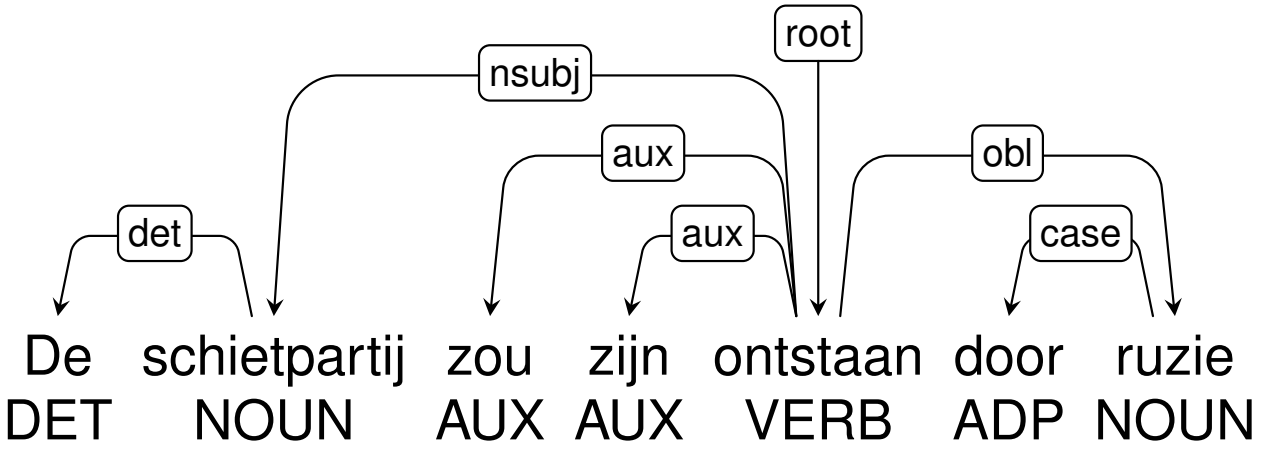
Questions

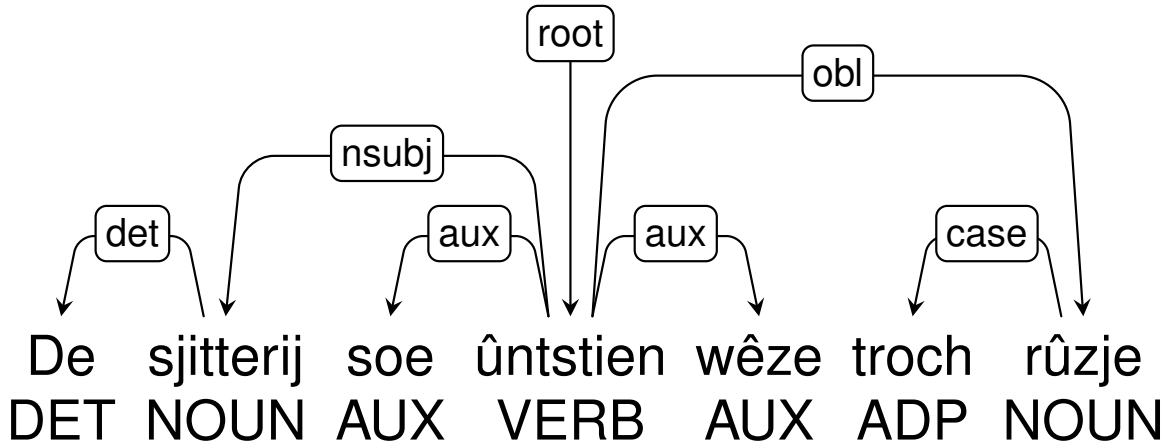
- Which treebanks use enhanced annotation?
  - Which phenomena? Coverage? Consistency?
- Parsing for EUD
  - Adding EUD automatically?
  - Evaluation metric?
- Interface to semantics
  - Does EUD help in real-world applications?

Universal Dependencies for Frisian

Adding Frisian Treebank to UD

- Closely related to Dutch and English
- Reasonable resource infrastructure (Fryske Akademy, electronic dictionary, corpora, (google) MT, spell checking, speech recognition)
- How hard is it to bootstrap a Frisian UD treebank?

Annotation Projection




- Analyze Dutch text (alpino parser + lassy2ud)
- Project NL→FY taking word alignment into account
