Data

- European Court of Human Rights

- Dutch Supreme Court

- Dutch lower courts (e.g. eviction cases)

- Huurcommissie

- Other courts, e.g. European Court of Justice, U.S. Supreme Court, supreme and lower courts of other European countries (not French or Russian)

Example tasks

- Predicting decisions of the Dutch Supreme Court

- Predicting judgments of ECtHR for article 6 (right to a fair trial)

- Predicting decision of ECtHR for a particular country (not Russia or France)

- Are decision easier to predict based on the documents in the original language than when using English/French translation?
