**Hans den Besten****Preface**

The category P in Gbe  
 Canonic and non-canonic deliberations about epistemic modality: its emergence out of where?  
 Reflexives in dialects of Dutch  
 Object shift and subject shift  
 A note on micro-dimensions of possession in Dutch and related languages  
 Comparative correlatives and verb second  
 Reflexives in discourse  
 West Flemish possessor doubling and the anaphor agreement effect  
 Verb movement in Dutch present-participle clauses  
 Cognitive phonology  
 A PF-interface condition on syntactic computation  
 Negative raising revisited  
 Blocking participial *ge-* in Dutch: prosody or syntax?  
 All languages are tense second  
 The grammatical elements in Negerhollands: loss, retention, reconstitution  
 Linking schwa in Dutch compounds: a phonomorpheme?  
 What do you move to what end? An exercise in anti-symmetry  
 East meets west: aboutness relatives in Swiss German  
 The morphosyntactic structure of articles and pronouns in Dutch  
 The proverbial word in Sranan  
 On the semantics of complementizers  
 Hierarchy in coordinate structures  
 Nominative-dative inversion and the decline of Dutch  
 Agreement and remnant movement in the domain of West-Germanic verb movement
